Cleaning Concentrates

Mixing and usage instructions:

Spray and Wipe Cleaner			
Everyday surface spray with sanitising and odour control properties. Use in your kitchen, bathroom and living areas			
Concentrate sizes	Container	How to mix	How to use
125ml 250ml 500ml	500 ml applicator bottle	Mix 25ml Spray and Wipe Cleaner concentrate with 475ml water. Tip! Add water first to prevent frothing	Spray 15-20cm from surface, leave for 1-2 minutes, wipe with All Purpose Cloth or Stay Fresh Dish Cloth.

Super Strength Cleaner			
Cleans heavily soiled cook tops, ovens and barbeques. Makes light work of grubby bench tops and sinks, vanities, bathtubs and shower bases. Also perfect for floors and grout.			
Concentrate sizes	Container	How to mix	How to use
125ml 250ml 500ml	500ml applicator bottle	Mix 25-50ml Super Strength Cleaner concentrate with 475-450ml water. Tip! Add water first to prevent frothing	Spray 15-20cm from surface, leave for 3-4 minutes (do not let dry), and wipe with a damp Shower Cloth or Tough Guy Cloth. If necessary agitate with Eraser. Stubborn stains may need a second application to remove chemical residue.

Carpet, Upholstery and Prewash Cleaner

Removes spot stains from carpets and upholstery. Also ideal for use as a pre-wash stain remover.

Concentrate sizes	Container	How to mix	How to use
125ml 250ml 500ml	500ml applicator bottle	Mix 25ml Carpet, Upholstery & Prewash Cleaner concentrate with 475ml water. Tip! Add water first to prevent frothing	For carpet and upholstery – Spray onto stain and gently work from outside to centre with a clean, hot, damp All Purpose Cloth. Leave for up to 5 minutes, blot excess. Finish with a clean, damp All Purpose Cloth. Stubborn stains may need a second application. As a pre-wash stain remover – Spray onto stain and gently work from outside to centre with a clean, hot, damp All Purpose Cloth. Leave for up to 5 minutes, blot excess. Finish in the washing machine according to the care label on the item.
